THE SONG OF THE LIONESSE

I am doing a report on the song of the lioness series. There are four books in the series in the first book Alanna is being forced by her father to go to sorcery school but she wants to go to knight school. Alanna's twin brother Thom is being forced to go to knight school but he wants to go to sorcery school. So, Alanna switches places with her brother, She sets off with Coram her companion to knight school.

She learns to wield a sword and she makes friends with Prince Jon, Raoul, Alex, Gary, and Gary's dad Duke Gareth. She also befriends a thief outside the castle named Goerge. She learns about Jon's uncle who is the most powerful sorcerer in Tortall at the time. And they all go back to the black city where they defeat the evil ghosts who have been harassing the Bazahar (Desert tribe's people) for ages.

In the second book Alanna finds her magic sword lightning. She meet's Miles an old knight who is a practiced swordsman. She also finds out that the duke Roger (Jon's uncle is trying to kill the king so she slays him.)But in that fight Roger cuts open her shirt and everyone discovers that she's a woman. So she leaves with Coram to travel the world.

In the third book, she becomes a shaman of a Bazhar tribe. She meets Liam who is the Shang master. And she travels to the roof of the world.

In the last book she marries Goerge and Roger is brought back from the dead. She manages to defeat Roger again but unfortunately Liam the King and the Queen are killed in the process, so now Thayet is queen and Jon is king and Alanna is the king's champion.

And now that I am on to read the sequel to the series to the song of the lioness... the immortals
