

Lady of the Night  
Plagues my dreams at night  
Makes me sweat screaming  
She dresses in black  
Riding on her black stallion  
Power is her scepter  
Destruction Her armor  
Those she despises are killed in an instant  
Witches and wolves are her closest companions  
Blood is her drink

She calls herself Queen tormenting me .  
Beware of the Lady of the Night  
Otherwise she may overwhelm you  
making you quiver with fear
