

## **Fear Won't Let You Escape**

- \* Fear won't let you escape,
- \* It Talks through slits and whispers its frightening words,
- \* It wears a long, dark cloak and brings about a mysterious aura,
- \* It glides through the thick, dark mist of night,
- \* It laughs at the pitiful sight of your sobbing face,
- \* It smiles as you sit there weeping.
- \* Fear won't let you escape.
