## My Sisters Keeper

The main reason i wanted to read this book was because i knew the movie was coming out. But after reading the book im not sure if i want to see the movie, it was just too sad.

Its about a girl named Kate who is diagnosed with cancer at age 2. Her mom wants to save her daughter so bad that she has another child who will be Kate's donor. Ana, born to save her sisters life. Kate lives to be 16 thanks to Ana's donors. But at age 13, Ana has other thoughts. She ends up finding a lawyer and sues her parents for the rights of her own body.

This book is truly heartbreaking, more problems adding up the entire time. You start to ask yourself whose side you are really on, until a shocking truth questions everything you know. This story is really spectacular, with a ending that will have you crying your eyes out.
