

Smile

Smile for it will be alright. Smile it really is a beautiful sight.
If you smile your night will turn to day. If you smile everything will be okay. If you smile your April will turn to May. Your smile will bring the sun and end the rain. If you smile you shall have no more pain. If you smile your troubles and worries will go down the drain. Your smile brings peace from the east, best for the west, and happiness for the rest. Turn your frown upside down. Smile for more than a little while.
